

Flexible Abrasives - Rough cleaning wheels

★★★
PREMIUM

PREMIUM rough cleaning wheels Strip-It on flexible fibre glass core
 for universal use

Application

- + For removing rust, paint and lacquer or for preparing surfaces for welding, soldering or anodising.

We recommend

- + S COARSE design for fine work on surfaces
- + Clamping of two 1GR wheels possible when using longer mandrel - creating higher area of contact
- + Use of an adjustable straight grinder

Advantage

- + Flexible nylon fibres enriched with aggressive abrasive grain for universal applications
- + Design prevents smearing and clogging of the wheel
- + Low generation of heat
