

Drill rig DRU160

Core drilling up to Ø 160 mm

Precision work due to high quality support with sturdy roller guide

Universal field of application thanks to 90°–45° diagonal adjustment

Efficient drill rig set-up using a standard centre indicator

The DRU160 is the lightweight among drill rigs up to Ø 160 mm. The standardised clamping collar system enables quick mounting of common drill motors. In addition, a centre indicator, angle indicator and spirit level enhance user-friendliness and help save valuable time during drill rig set-up. The anchor or vacuum attachment facility also increase flexibility.
